SPRING SALES.

If you intend having sale in the spring send us the date for publication. The dates are published free of charge to all who advertise in the Compiler or have their bills printed with us.

The Compiler is read by 10,000 people every week. It goes into every section of Adams county, and is an excellent medium through which to make known the date of your sale and what you are going to sell.

Advertising and large and attractive sale bills at moderate prices.

The purpose of publishing the dates before the sales is to prevent two or more sales taking place on the same day in the same neighborhood. If you have fixed your date send it to us, therefore, so that neighbors may know what day you have chosen.

HOG POINTERS.

THE HOG A MORTGAGE-LIFTER—ONE OF THE MOST PROFITABLE ANIMALS ON THE FARM—HOW TO FEED AND CARE FOR HIM.

Hogs are still lifting mortgages. Starved pools are poor places for hog walls.

The hog raiser the most valuable asset on the farm is the stock bucket.

The farmer who has a few good hogs to market these days is not complaining of hard times.

There is a vast difference between a grout and a squeal. One is a chord, the other a discord.

If you can't keep pigs growing do not keep them at all. It is the nature of pigs to live to eat.

Starved hogs and a good clover pasture are what will produce pork of first quality at this time of year.

Alfalfa is a well-liked forage crop for hogs in the West. It will be popular in the East when it is better understood.

It is too dangerous to take the risk of driving fat hogs this year. You can save time and trouble by using a wagon.

Hogs are only generally because they are compelled to do so. No animal will keep a hog clean than a hog will if given a chance.

You can take more interest in making a good corn crop if you have a good bunch of sheets to help turn it into cash as soon as it is ready.

Tony treating your hogs a little better this year than you did last. It will not hurt the hogs and will not injure you to any great extent.

Ring the hogs if it is actually necessary, but do it as humanly as possible. Get the best rings and the best appliances and do it just right.

Shade is an absolute necessity for the comfort of hogs in the heat of the summer. It is as important to furnish shade for them as it is food.

Never get so busy as to neglect your hogs. A stroll through the fields every few days might bring to your notice some disease or irregularity that might be easily neglected.

Don't hesitate to ask your neighbor how he manages his hogs if he makes more of a success in this line of business than you do. He'll be glad to tell you if he is a gentleman, and you may get some pointers in this way that would take you years to find out.

It takes only a small capital and a short time to build up a respectable herd of pure-bred hogs. Make up your mind which kind you want to breed, write some of our advertisers for prices and get the thing started. In a year from now you may be right in it with any of them. Good management, careful study and a little hard work will put you in the front rank before you know it.

The well-posted hog man is posted in all that influences the hog market. The future markets and prices depend upon future supplies and hog products in store for future use. Have you noticed the reports from the packing centers which are found in the commercial departments of all wide-awake agricultural paper? If you have not you are not able to size up the future of the markets.

Nothing will turn the refuse of the farm into money faster than good growing pigs.

Try eating a corn diet only yourself for months at a time and you will understand why hogs do not do well without a change.

If your hogs eat unwholesome food or drink foul water it is because they can get nothing better. It is your fault and not the hogs'.

Let the pigs pick up all the fruit that falls from the trees as fast as it grows. It will destroy the source of lots of pests to the fruit trees.

Try keeping an account with your hogs once, charging them with everything they eat and giving them credit with what they produce, and see whether they pay as well as or better than other live stock.

TO MAKE HENS LAY.

Here is an item for our farmers and a good receipt that can be copied on, as the New York chemist remarked while lecturing before the chemists' class, and while analyzing an egg said if the hens were fed it regularly they would lay as many eggs in winter as in summer.

Powdered red alum and black pepper, one pound of each, mixed. Then mix wheat, bran and corn meal, same quantity of each, and to each quart of this mixture add two levelspoons of the alum and pepper each two twelve hens. In the evening feed whole grain and in two weeks' time your hens will be on duty the same as in summer. The professor said further that the hens would not set until he quit feeding this mixture, in an egg famine like this it is worth trying.

—FIRST LITTLE GIRL:—"The doctor brought us twins yesterday!"

Second Little Girl:—"That's where you made a mistake. You should have had a housewife."

—LITTLE CLARENCE (who has an inquiring mind):—"Pa, what is a 'wise old sow'?"

Mr. Callipers:—"One that has cut its wisdom teeth, my son!"—Puck.

—THE WEDDING OF SARSAPARILLA AND CELERY.

A NOTABLE MEDICAL DISCOVERY.

No event in the history of medical science is fraught with more importance than the discovery of the ideal combination of sarsaparilla with celery, that is, the sarsaparilla with the greatest number is the standard of comparison. There are millions of people to-day suffering from ailments which sarsaparilla and celery will cure. There are thousands of cases in every country who could be saved from future sickness to-day by its prompt use.

—The ideal combination of both these drugs was discovered after years of patient research by Dr. Andrew E. Buehler, of Baltimore, Md.

HANS, THE COBBLER.

HE IS ADVISED TO START A LITERARY SHOESHOP TO BOOM HIS TRADE.

Tries the Experiment; but, as Usual, the Scheme Fails to Work and Gets Him Into All Sorts of Predicaments, with More Coming.

(Copyright, 1901, by C. B. Lewis.)

DON'T count me, Hans, my friend, I like to see me do poor things, and this comes to my place and says:

"Hans, I shall tell you something to make you a rich man in a year. You must have a little library along with your cobbler shop. If a man wants a comment printed on his shop, you must give him Shakespeare to read while he waits. In short, I want you to be a Shakespeare Cobbler Shop," and you shall see how much he will be appreciated. I shall lend you some Shakespeare to put in your library."

I don't know who Shakespeare was, but I prefer she was a good idea. Do not many bring me six op books, and a put a sign. My shop was open only ten minutes before a man comes in and says:

"You was some literary cobbler, eh?"

"I vwas," I says.

"Und you haf books to read while I has a lift put on my heel? Vell, by golly, vhas a new idea, and I like it."

He looks over doce six books in two minutes and says:

"Ah—um! I don't see dot book I vwant. Cobbler, haf you got 'Robinson Crusoe'?"

"I don't vell it hat."

"But why not? She vwas der most interesting book in der world. If you like to please your customers, you vwill haf 'Robinson Crusoe.' Shut stop out and get him for me while I wait. I like to read about his man Friday."

"I can't do it! I says.

"But why not?"

"I dunno, but I can't do it." "O, I see. You giv six books by Shakespeare, but do not any like vhat places or not. Vines dot some way to do peusness? Nofer! Sir, you vhas a fraud, and I shall break you cop in peusness!"

I don't say nothins, but he vwas mad and likes to punch my head for two cents. He goes out slacking his fist at me, and I am soon eliminatin a young man comes in and says:

"Cobbler, a patch on dot shoe while I tarry. How about der free library?" "She vwas all K. O."

"Let me see. I like to read a book by Shakespeare called 'Hil's Own Darling,' but you don't haf him here. How vhat dot?"

"I dunno."

"But you should know. Dot vhas a book to melt your heart. You can't
